Breakdown

Aug 24, 2025	+2 Users
Used 31 out of 31 days	

If a unit is added or removed during the monthly plan, we calculate the prorated price based on the ratio of days remaining or used to the total number of days in the plan. For example, if 15 days are left in a 31-day period, we charge 15/31 of the period price. If a unit was used for 10 days, we charge 10/31 of the period price.
